In 1876, Randolph wants the colored people to vote for him for Congress. In 1865, he didn't want them to have the right to vote for anybody or for anything.

Had not the cat answered her at this critical moment by a "meawl," she doubtless would have fainted. Into the kitchen she went and upon examination found that Miss Pussy had been locked-out, but having was covered with stiff brown paper. The cat being hungry, of course set her catship to hunting up something to satisfy her appetite, so up she jumped upon the shelf, where she knew the dame usually kept cold beans and cabbage. While scrambling about on the shelf pussy came in contact with a mouse, and in trying to make sure game upset a glass tumbler, smashing it all to atoms, and the noise frightening her caused her to carry off a coffee-canister by the end of her tail as she sprang to the floor, also breaking that valuable property to housewives all to pieces. The lady seeing the damage done, with a scorn on her brow snatched up the cat to throw it out the window; but the cat while the young lady was viewing the wreck had managed to get hold of the mouse, and the young lady in taking hold of the cat by some means let her hand come close enough to the rat's mouth for that shy little animal to bite it. She screamed. Coal oil was recommended, and the house was again locked in slumber.

THE FIRST CONGRESSIONAL DISTRICT.

The Republican party of the First Congressional District have won the profound respect of their political opponents. This is so seldom the case that it is the subject of remark

throughout the State of Tennessee. Two years ago the leaders of that party put forward the Hon. Roderick Random Butler as a candidate for Congress. At the time there was an indictment pending against Mr. Butler at Washington City for defrauding the government. Mr. Butler and the leaders of the Republican party thought this would not be objectionable to the people of his District and the voters of their party. But in this they were sadly mistaken. They were mistaken in supposing that there was not an honest portion of their own party who would not endorse corruption and frown down a want of principle in a leader even of their own party.

The Democrats put forward Hon. William McFarland who had no very general acquaintance with the people Mack Fulton's barber-shop, when Mack of the District before his candidacy but who, wherever he was known was esteemed as a gentleman, and a man a superb number. Those who use Hostetter's Stomach Bitters as a means of invigoration and protection against disease, invariably reap an ample harvest of health. Diges-tion, exerction and secretion are rendered regular and vigorous by this ruling tonic and alterative, and the essentials inte of health being secured, that blessing naturally follows. Nervous disease, intermittent and remittent fevers, rheumatism, biliousness, and kidney or bladder troubles are speedily relieved by the Bitters, which are as potent in preventing these maladies as in remedying them. And it may almost be said that their power of preventing diseases is as strong a recommendation in their favor as their power of curing them, especially in localities where febrile complaints of an intermittent type prevail, and where the ordinary resources of the pharmacopeia. such as quinine, arsenie, bismuth, etc. afford no adequate safeguard.

The Bitters are also highly desirable as a substitute for the ordinary nervines and sedatives. The hydrate of chloral
